Art Unit: 1755

A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 22 April 2004 has been entered.

Newly submitted claims 19 and 22 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Applicants amended these claims so they are now directed to an ink composition. Ink composition is different from coating composition in their properties and composition and they are not disclosed as capable of being used together. Accordingly, the newly claimed ink and the originally claimed coating composition are unrelated and therefore independent or distinct from each other. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 19 and 21 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Applicants are reminded that one cannot file an RCE to obtain continued examination on the basis of claims that are independent and distinct from the claims previously claimed and examined as a matter of right (i.e., applicant cannot switch inventions) (see 37 CFR 1.145)

Art Unit: 1755

because 35 U.S.C. 132(b) and 37 CFR 1.114 provide continued examination of an application and not examination of a continuing application.

This application is in condition for allowance except for the presence of claims 19 and 21 to an invention non-elected by original presentation due to the amendment to these claims filed on 22 April 2004. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. **Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.**

The prosecution of this case is **CLOSED** except for consideration of the above matter.
